opentext™ | AppWorks

Cloud On-premise Hybrid

The **world's innovating and leading organizations use the OpenText enterprise information managemen**t (EIM) **platform** to manage and gain insights from their critical information assets. The latest release enhances protection of these assets from threats and data breaches, while continuing to expand support for advanced artificial intelligence (AI), IoT, and extreme automation use-cases.

OPENTEXT SECURES DIGITAL TRANSFORMATION ACROSS THE INTELLIGENT AND CONNECTED ENTERPRISE: MIGRATION FROM THE CONTENT TO THE INFORMATION MANAGEMENT.

Benefits of migration to the newest version of OpenText Documentum:

- **TCO Reduction**–new tools and options that simplify and reduce the costs of deploying and administering Documentum implementations.
- **User Productivity**–enabling end users to be more productive working with Documentum and content stored within Documentum.
- **Mobility**–newly rebranded tools and integrations that enable you to access Documentum content and participate in associated workflows.
- **Integrations**–adding new capabilities and delivering new value by taking advantage of OpenText technologies.

MANY OPENTEXT DOCUMENTUM CUSTOMERS FACE THE CHALLENGE OF SELECTING A SUITABLE WEB-BASED, NEXT-GENERATION DOCUMENTUM APPLICATION TO REPLACE THEIR OLD AND WEBTOP CLIENT.

We, Proit, can help to solve that challenge for mid-sized and large enterprises:

- **by transforming ideas into** new, powerful, and scalable **information management systems** that are based on the OpenText Documentum platform,
- **by assessing existing** Opentext Documentum **solutions**,
- **by consulting customers on preparing the best possible** configuration, including selection of an optimal set of Documentum components according to the needs of the users,
- **by preparing and implementing** migration and integration **plan of the solution.**

We are a team of software developers, architects, testers, and projects managers who can help you transform your idea into a powerful and scalable product. **We are a reliable partner in your journey to success.**

We are Proit.

For more than 10 years, we have carried out successful migration projects in major companies with different degrees of complexity. **In our portfolio, there are many OpenText Documentum implementation and migration projects**, e.g. National cases management system for courts. Documents system for Center of registers, E-archive for Mobile operator.

Our staff are certified in the following areas: project management, business analysis, IS architecture, software development, testing, Documentum integration, quality management. We are based in Dallas, TX and Vilnius, EU.
